Incorporated in 2013, Green Freight Asia (GFA) is a non-profit association of industry players, which collaborates with industry companies, NGOs, and governments to improve energy & fuel efficiency, reduce CO₂e emissions, and lower operational costs across the entire supply chain. GFA has been working within the APAC region for 10 years.

Our 6 Programmes

01

Measurement, Reporting & Verification Programme

02

Partnership Impact Programme

03

Labelling and Certification Programme

04

Eco-driving Programme

05

Carbon Offsetting Programme

06

Sustainability Insights Programme

The Green Freight Movement

GFM is an opportunity for logistics, freight, and transport sectors in the Asia Pacific region to engage in knowledge sharing and capacity building in sustainability. Through a series of webinars, online workshops and a leadership forum, GFM aims to equip companies with valuable industry insights to drive greener freight choices.

The Green Freight Movement is supported by The UPS Foundation.

Leadership Forum Programme

10 MAY 2023

4.00 – 4.30pm	Registration
4.30 – 4.45pm	Opening Remarks
4.45 – 5.00pm	IKEA Talk
5.00 – 5.15pm	Video Screening
5.15 – 5.45pm	Break
5.45 – 6.00pm	STACS Talk
6.00 – 6.15pm	UOB Talk
6.15 – 6.30pm	GFA 10 Year Commemoration
6.30 – 7.00pm	Networking

In this hybrid event, industry leaders will come together to share best practices and sustainability insights that can help drive greener freight choices within an APAC context. The exciting line-up this evening will provide a valuable opportunity to connect with other sustainability-driven organisations and GFA member companies present!
