

Introduction and Programmes

Who we are

Green Freight Asia (GFA) is a **non-profit** association of industry players, formed in 2013.

We aim to **reduce carbon emissions**, improve energy and fuel efficiency, and reduce operational costs across supply chain.

Our Network

Our member network contains **MNCs and SMEs** across the **Asia Pacific** Region, and includes both **Shippers and Carriers**.

GFA is headquartered in **Singapore**.

Our Programmes

GFA Labelling and Certification Programme

Verifies members' commitment to sustainable practices in their logistics processes.

Measurement, Reporting, and Verification Programme

Data collection and analysis on greenhouse gas (GHG) emissions from operations, used to produce a GHG report.

Partnership Impact Programme

GFA connects members with solution providers in our network, to help members reduce emissions.

Carbon Offsetting Programme

Verification of renewable energy certificates (RECs) by GFA, on the APX TIGR Registry.

Eco-driving Programme

Training on driving methods that reduce carbon emissions, in partnership with certified eco-driving trainers.

Sustainability Insights Programme

Tailor-made workshops on sustainability-related topics and practices, for members.
